

PRESS RELEASE

NOTICE ON SHARED IDENTIFICATION DOCUMENTS IN THE REGISTER OF VOTERS

NAIROBI: Saturday, February 4, 2017: The Commission (IEBC), wishes to notify the public that it has published the list of voters with shared National Identification Numbers. The list includes **21,149 records** that bear the same ID numbers and same names and **57,603 records** whose ID numbers did not match the National Registration Bureau records we had submitted for verification.

Persons whose names are listed are requested to visit the IEBC Constituency offices where they were registered to verify and correct any discrepancies that may exist. Those who will not have verified and corrected their records within 10 days from **February 6, 2017**, run the risk of having their names being expunged from the register of voters.

The details of the shared identification numbers may be accessed at <http://bit.ly/2182JHp> or at the Commission's constituency offices across the country.

We will continue the process of cleaning up the register even after the completion of the Mass Voter Registration campaign. We appeal to the public to continue being vigilant and support the Commission during this exercise.
