

UPDATE ON RESULTS VERIFICATION - 28/10/2017

Good afternoon Ladies and Gentlemen.

As at 4pm today Saturday October 28th, 2017, the Commission had received 232 physical forms 34Bs out of 291 constituencies. Out of these, 114 results have so far been verified and displayed at the National Tallying Center Yesterday the Commission postponed elections in 25 Constituencies in Homabay, Migori, Kisumu, Siaya counties and a few polling stations in Turkana Central and Fafi constituencies.

It is worth noting that polling is going on in 5 polling stations in Turkana central constituency, which has a total of 696 registered voters.

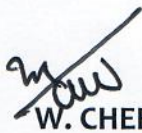

However, in Fafi Constituency in one polling station where we have been experiencing accessibility challenges, the Commission is still making arrangements to ensure election takes place.

The verification process is a crucial process that is anchored in the constitution article 138 (3) which guides the Commission in terms of process, tallying, verifying and declaring the presidential election.

It has come to the attention of the Commission that there are fake and unverified results being circulated on the social media, we wish to reiterate that the official results are those verified and announced at the National Tallying Center by the Commission.

Finally, we wish to remind Kenyans that the scanned electronic forms 34As and 34Bs of the election results can be accessed through the online portal- **forms.iebc.or.ke**.

Thank you.

W. CHEBUKATI,

CHAIRPERSON, IEBC
